

## Poster 2.0: Creating and Presenting Glogs

### REGISTRATION

1. Go to [www.glogster.com/edu](http://www.glogster.com/edu) Click on Register at the top right corner. Fill in all of your information. For Student Accounts, enter the number of students that you would like to create. Click SIGN UP.
2. You will see your Profile that shows that you have Friends. These are the Student Accounts that you requested. When you scroll down the page, you will see your Friends (Student Accounts). The Nickname of your students will include a number with your Username after it. A password for each student will be sent to your Email.
3. Each student account has a unique password of letters and numbers. You can change the passwords by going into each account on Glogster. Click on Edit Your Account and then the Password tab.

### CREATING A GLOG

4. On your Profile Page, click Create A New Glog. Now you are on a new glog screen. Scroll up and down the glog to see all of your work space.
5. Glogster offers suggestions for you by placing elements on each new glog. If these do not suit your design, simply delete them by clicking on the red trashcan on the tool bar above each element.
6. **Naming and Saving your glog:** Type a title for your glog in the box at the top of the screen labeled Glog Name. Click Save and Publish at the top or bottom of the page. Click Classic Glog. In the Publish Changes window you should see the glog's name which you may revise. Under Category, click School for school projects. Under Tags, you may add subject tags or leave this box blank. Mark your glog Public or Private. Click Save.
7. In the box Your Glog has been Published, click Continue Editing to keep working on your glog or View this Glog if you are finished. Remember to click Save and Publish periodically to save your work and always when you finish your glog.
8. **Tool Box:** On your glog page, you will use the

black tool box to create your glog. The tool box is attached to the left side of the Wall and slides up and down. To hide the box, click on the small red bar on the top left corner of the box. To show the box again, click on the left edge of the Wall.

9. **Wall/Background:** Click on WALL to set your background. Choose a Category to browse the pre-loaded backgrounds. Click on your selection and then click Use It.

**OR**

Click My Pictures.

Click Upload to use a picture saved on your computer.

After clicking the Upload button, browse your computer files, select the picture, and click Open. The picture will be added to your glogster library.

In the glogster library, click on the picture to select it for the wall.

Click **Stretch and Fill** and **Use It**.

10. **Images/Pictures:** Click Image on the toolbox to upload pictures. Click Upload. Browse your computer files, select the picture, and click Open. The picture will be added to your glogster library. In the glogster library, click on the picture to select it. To enhance the picture, click Add a Frame. Then click Use It. Click and drag the picture into place on the glog.
11. **Video:** Click **Video** to upload a video saved on your computer. After uploading the video to your glogster library, click **Add a Media** to enhance the appearance. Then click **Use It**.

**OR**

Click **Link** if the video is on the Internet. Paste or type the URL into the box.

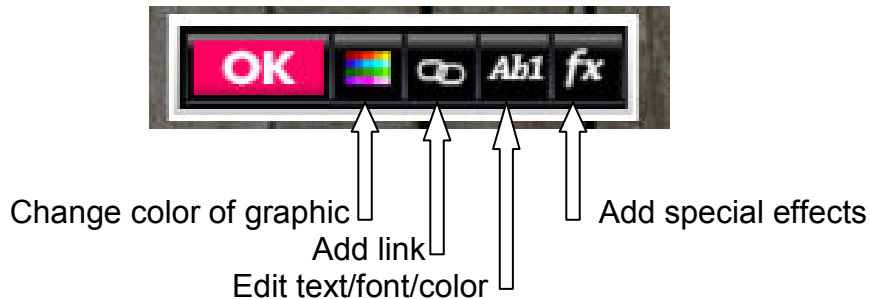

Click **Add to Your Files**. (Videos will not play in the edit mode of the glog.)

Click **Add a Player** and **Use It**.

12. **Sound/Music:** Upload and add to the glog like a video.
13. **Text:** Click **Text** on the toolbox to add text boxes. You may choose a title box, bubbles or stickers for your text. Select the textbox and click **Use It**. Click **Edit** above the text box to add text.

The next text toolbar provides options for editing the textbox graphic, adding a link, special effects and editing the text color and style.

- 14. Graphics:** Click **Graphics** on the toolbox to add still or animated graphics. Choose a Category to browse the pre-loaded graphics. Click on your selection and then click Use It.

**Share Your Glog with Others** There are several different ways to share glogs.

- 14. Email a Link to your Glog:** Save and Publish your glog. Change your glog from Private to Public. After you save, the Your Glog has been published box appears. Select Enter Manually beside Import Contacts. Type your name in the My Name box. Enter the recipient's email address next to Friend's email.
- 15. Linking or Embedding Your Glog:** Save and Publish your glog. At the bottom of the Your Glog has been published box, click Back to Profile. On your profile page scroll down to the miniature version of your glog. Beside your glog will be Embed & Link to this page and two code boxes – Link and Embed.

**Link:** Click Copy at the end of Link to copy the link to your glog. You may paste the link into an email, wiki, or website.

**Embed:** Click Copy at the end of Embed to copy the html code into Your website or wiki. (If you are using Wikispaces for your wiki site,

Choose Insert Widget and then Other HTML to paste in the glog's html code.)
